A beautiful inlaid table was the gift of Mrs. John F. Wood, a former Library Trustee. Gifts of money were received for the repair of the tall clock and for the new encyclopedia.

Seasonal paintings, loaned by the local art groups have brightened the reading rooms thruout the year. The prize-winning pictures of the Keene District, Women's Clubs were on display during the month of March.

National Library Week was celebrated by an "Open House" and by an address given by Mr. Philip Northway of Hanover on the subject of school libraries.

Two Story Hours were conducted by Dr. Judith Pratt. The Library also conducted a very successful Summer Reading Program.

ANNUAL REPORT OF CO. NO.2 TO FIRE COMMISSIONERS

Fires were at an increase in the northern section of the town over last year with 9 alarms being recorded.

Three of these alarms were of an electrical nature one of lightning, one brush fire and three building fires. Co. No. 2 also assisted at the Gates and Hill fires.

The total loss of the Hutchinson Farm in North Branch was very regrettable; however, it has brought to everyone's attention, that water shortage is the main factor for the high percentage of losses in the outlying districts of any town.

Town expenditures in the future should include funds for the upgrading of exsisting water holes and of building new sources of water supply.

Dry hydrants are the best means in obtaining water with a minimum loss of time, especially during the winter months.

In line with this theory Co. 2 installed with the help of the town and Edwards Construction Co. the first dry hydrant in Antrim on Route 9 near the fire station. It is the intention of the Fire Department to install several more throughout the area in the future.

The average cost of a dry hydrant is between \$200—\$250; certainly a small investment considering the benefits in an emergency.

At the December meeting company members decided by popular vote to buy a two-way radio for engine No. 4 out of company funds. This will greatly reduce the time element in getting help to a major fire. Members also installed a traffic control signal in front of the North Branch Fire Station.

This project was necessary in order to reduce the accident hazard due to the high speed of traffic on Route 9. All equipment and labor was donated by department members.

The untimely death of Chief Griswold is felt by both companies and greatly regretted.

Company 2 held twelve meetings and six fire drills during the past year.

The sum of \$44.00 representing returned pay by members has been ear marked for future expenditures by the Fire Department.

Respectfully submitted,

ADOLF J. BAER

Assistant Chief

REPORT OF THE TOWN PLANNING BOARD

The Planning Board has held several meetings during the past year. This board has discussed many matters which we think would be an improvement to the Town such as Parking, Management and Traffic Conditions at the corner of Main and Concord Streets and several other matters. This board has offered its services to the Selectmen on any matter we could be of help.

Again this year we have no recommendations to present to the Town and we are not asking for any appropriation. We would appreciate any suggestions that may be offered to this board by anyone and ask that anyone interested attend our meetings.

PRECINCT COMMISSIONERS' REPORT

The Precinct, for the first time in 30 years, is completely free of debt, the last note having been paid a year in advance. We have had some rather heavy expense this year for pipe line maintenance, but this includes cutting all the brush and chemically treating the stumps on the pipe line Right of Way from the Mattheson residence to the pond. This should reduce future maintenance costs of keeping brush and sprout growth to a minimum. The metering equipment has been completely rebuilt and should be good for many more years of service.

Work completed at Campbell Pond during 1960.

1. 1,000 Red Pine seedlings were planted in the cutting area; this, in part, was a cooperative undertaking by members of Antrim Troop 2, B. S. A. as a service project to their community.
2. The north line of the recently acquired Poor Lot has been partially surveyed and marked, as well as the south line of the French addition adjacent to the dam.
3. Copper sulphate treatment of the water was continued to keep the pond free of algae.

Work planned for Campbell Pond in 1961.

1. Spring and fall planting of 2,000 pine seedlings.
2. Complete surveying and marking of north boundary.
3. Start removal of hardwood on the west shore to minimize further accumulation of leaves in the reservoir.
4. Install additional culvert and fill to provide adequate passage over pond outlet to French land as per deed agreement.
5. Check need for follow-up chemical treatment of pipe line Right of Way so as to plan work for summer of 1962 if needed.
6. Continue copper sulphate treatment.

We have included an article in the warrant this year to establish a Capital Reserve Fund for the replacement of pipe lines, which we hope will be adopted.

We are planning to review the water rates this year to bring them up to date and are seriously considering changing the billing dates to January 1st and July 1st.

We make the following recommendations for the ensuing year.

1. That we raise the sum of \$2,000 by taxation.
2. That we collect 75% of the established water rates.

Respectfully submitted,

SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD AND CITIZENS OF ANTRIM:

It is a pleasure to submit my seventh annual report for your consideration.

For a longer period of time than I have been your Superintendent of Schools this community has been studying and proposing various plans to meet the needs of adequately educating the youth of Antrim in Grades 7-12. Again this year the voters of the Antrim School District will have an opportunity to express their opinions on a new plan proposed by the School Board and Building Committee. Because of the increasing pupil enrollment, it becomes imperative that a decision relative to the future housing of these pupils be the result of this meeting.

Perhaps, an examination of the projected enrollment will be of help in arriving at a decision.

It is perfectly obvious that next year we will be in trouble. In the past we have combined English I and English II, English III and English IV, XI and XII History. We do not have classrooms large enough to continue to do this, but splitting the classes would require the services of another teacher. This we cannot do because we do not have a teacher station available. An expansion of our Foreign Language offerings and Industrial Arts courses cannot be accomplished because of insufficient personnel.

The district should provide the School Board with some form of relief.

Mr. Kent Bailey, Miss Darlene Edgell and Mr. Peter Clark left us this past year to accept employment elsewhere. We have been extremely fortunate to obtain as replacements Mr. Charles Hamel from Troy, Miss Elaine Olsen from Penacook and Miss Ruth Harris of Sullivan. Mrs. Jo-Ann Demars replaced Mrs. Betty Dunlap who resigned from the fifth grade position in the Elementary School.

Mrs. Milton Hall, School Lunch Supervisor, has succeeded in increasing the number of pupils participating in the program to the extent that new tables and chairs had to be purchased this year.

Furniture for two rooms has been obtained for the High School building, and it is our plan to furnish another room next year.

Under the National Education Defense Act we have been able to make a good start in providing new and modern equipment for the Science laboratory.

Again, it has been a pleasure to work with the School Board, teachers, pupils and citizens of Antrim, and I appreciate the fine cooperation given me.

Respectfully submitted,
 NORMAN R. HARTFIEL
 Superintendent of Schools
